PI Report Dec. 13, 2020

Hello Family, Rickey D. - addict.

First off the Radio Station WQSB 105.1 is announcing our area phone # and website as a public service announcement.

There is no specific time because all PSA's are played on a loop. However I did follow up with PSA director at WQSB Dale Stallings to see how long this PSA could run for. It is now set to run until December 2021.

I would like to contact as many stations as we should and will as for suggestions on area floors today.

In loving service
Rickey D.

PS: I would like to thank those that showed up to make sure the workshop Day at Scottsboro new beginnings went as planned. I chose not to be there as to apply the 1st Tradition because I had been in ~~the~~ recent contact w/ 3 people that had tested positive for covid-19.

December 13, 2020

ASC,

I posted the area minutes from November just today. I did not receive the secretary report that is normally included so I just added what I had.

We had a few issues last month with the website due to an upgrade of the php version on the hosting site. After upgrading the PHP on the hosting site to the latest stable version the NEAANA website became buggy and unstable.

I was able to take the site offline for 48 hours while I repaired it. The process included the following:

- Backing up the current site (this is just good practice even tho it's not a restore I will use unless the restore process isn't going as planned)
- Placing the site into maintenance mode (this lets potential site visitors know they have the right address but it is temporarily down)
- Removing the wordpress instance currently hosted
- Reinstalling the wordpress instance
- Reconfiguring the database with correct credentials
- Restoring the site to last good configuration
- Upload documents that would not be contained in the last backup
- Bringing the site back online

There was also a problem with how the address was entered for the Scottsboro New Beginning's location. I contacted the webmaster for the BMLT for support and was able to get that corrected. In the future to add a new location it would be good practice to search for the address on Google and copy that address because that's what the BMLT is using on the backend.

Regards,

Christy L.
